

Installation and Logistics Services

Wilson Display's national installation and logistics team provides professional, worry-free solutions for:

- New Stores
- Renovations
- Roll-outs
- Close-Outs

*Every job done right,
on time and on budget!*

Testimonials from Wilson Display Customers

"Wilson Display's installation team is a key part of the complete fixture store package they provide for Forzani. Several years back, I had Wilson installers train our store associates on assembling the fixtures. When I saw how fast the Wilson guys were, I asked myself "Why would we do this ourselves?" Wilson Display continues to do a great installation job for Forzani as we rapidly expand across Canada. Wilson Display takes the stress and pressure away from our G.C.'s and store associates so that they can focus on getting our stores ready for opening."

Chris Kleine, Senior Design and Construction Manager, The Forzani Group

"In October of 2008, we purchased Party Packagers because of its opportunity to expand in a niche retail market Canada wide. One of our most important decisions was to select a fixture company that could support our growth, work with our available resources and talent, and supply a complete package from gondolas and shelving through to shopping carts and installation... It became very clear that Wilson Display was the leader in the category. They were able to provide us with a complete store fixture package and installation program that was among one of the best I have used. I was extremely impressed with Wilson's talent, expertise and ability to deliver on budget and on time! They have my highest endorsement and I believe their work is among the best in our country."

Bill Goodwin, President, Party Packagers

"For 15 years, Wilson Display has been Winner's primary installation company. During our 15 year partnership, we have grown from 50 locations under the Winner's banner to 208 Winners, 80 Homesense and three StyleSense stores. Wilson Display does a superior job for Winners with our nation-wide department roll-outs, relocations, renovations and last minute requests."

Bill Turner, Assistant VP, Store Development, Winners
